

Jay's Synthetic Grass

Artificial Grass & Composite Decking

Before you install, give Jays a call!!

 **Jay's**
synthetic grass

Jay's Synthetic Grass is the superior provider and installer of quality synthetic turf in Perth. With changes in the environment creating even more pressure on our limited water resources, the demand for environmentally sustainable products have increased dramatically.

We offer a full range of artificial grass and lawns; superior quality golf putting greens, along with other synthetic sports surfaces such as tennis courts, cricket pitches and basketball courts complemented by a full range of artificial lawn accessories.

Supplying to both private and commercial customers, we offer either supply or the complete supply and installation of our artificial grass products.

In order to provide our customers with quality cutting-edge products, we only deal with leading companies such as: **TENCATE** **MatteX**

OUR LATEST PRODUCTS

Oasis

Traditional yarns using conventional rubber infill tend to absorb heat, resulting in uncomfortable surface temperatures. Oasis reflects sunlight and dissipates heat into the atmosphere instead of absorbing it into the yarn, resulting in the synthetic turf offering a more cooling effect.

The design and synthetic yarn of this product is manufactured in Holland by Tencate leaders in synthetic turf.

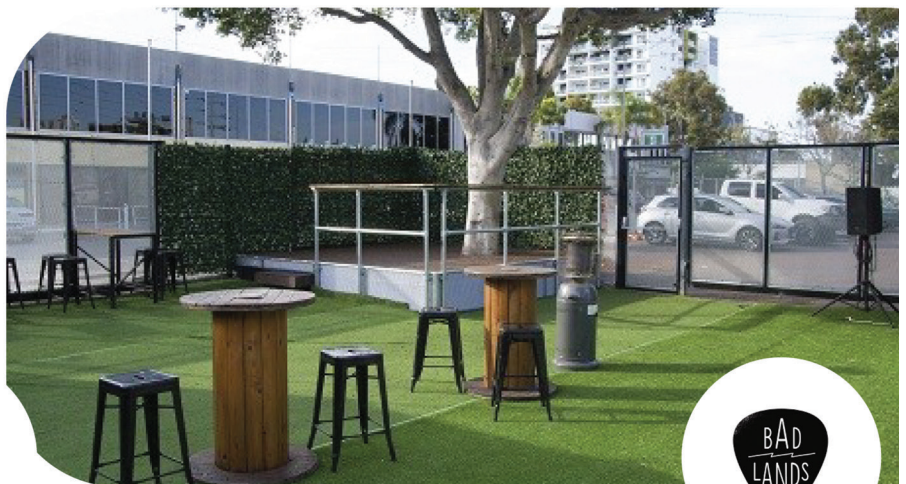

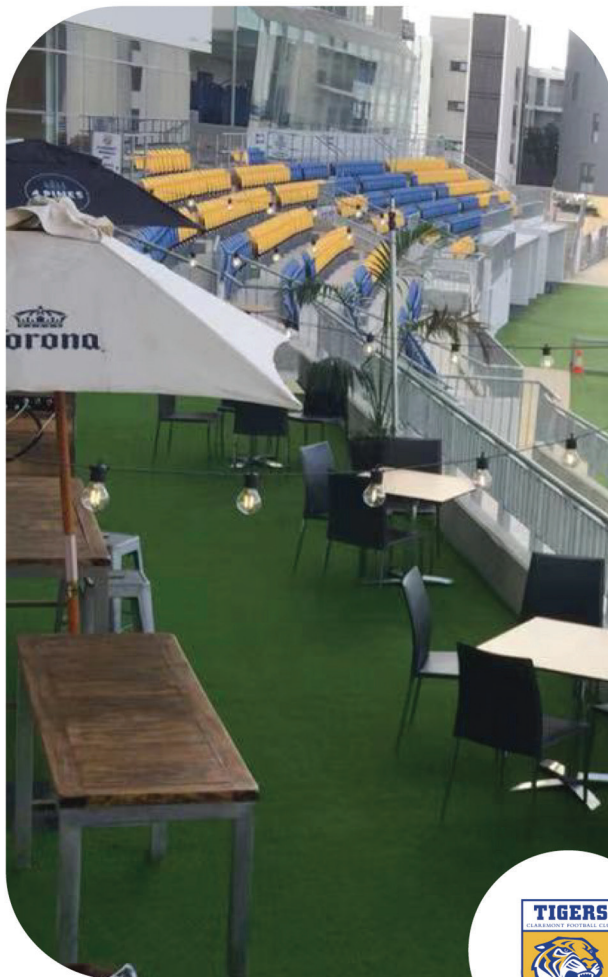

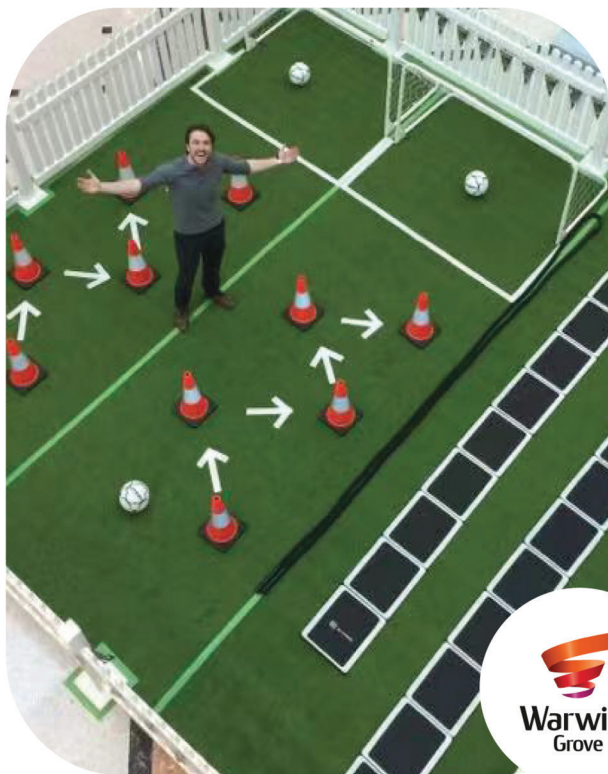

Paw-Friendly

Paw Friendly is the perfect choice for anyone with pets. This artificial grass uses a unique anti-bacterial protection formula which effectively inhibits the growth of bacteria and eliminates odour. It provides a clean and safe environment for you and your pet.

This grass is 3-5 times higher and provides 150-200 times the drainage speed of traditional grass.

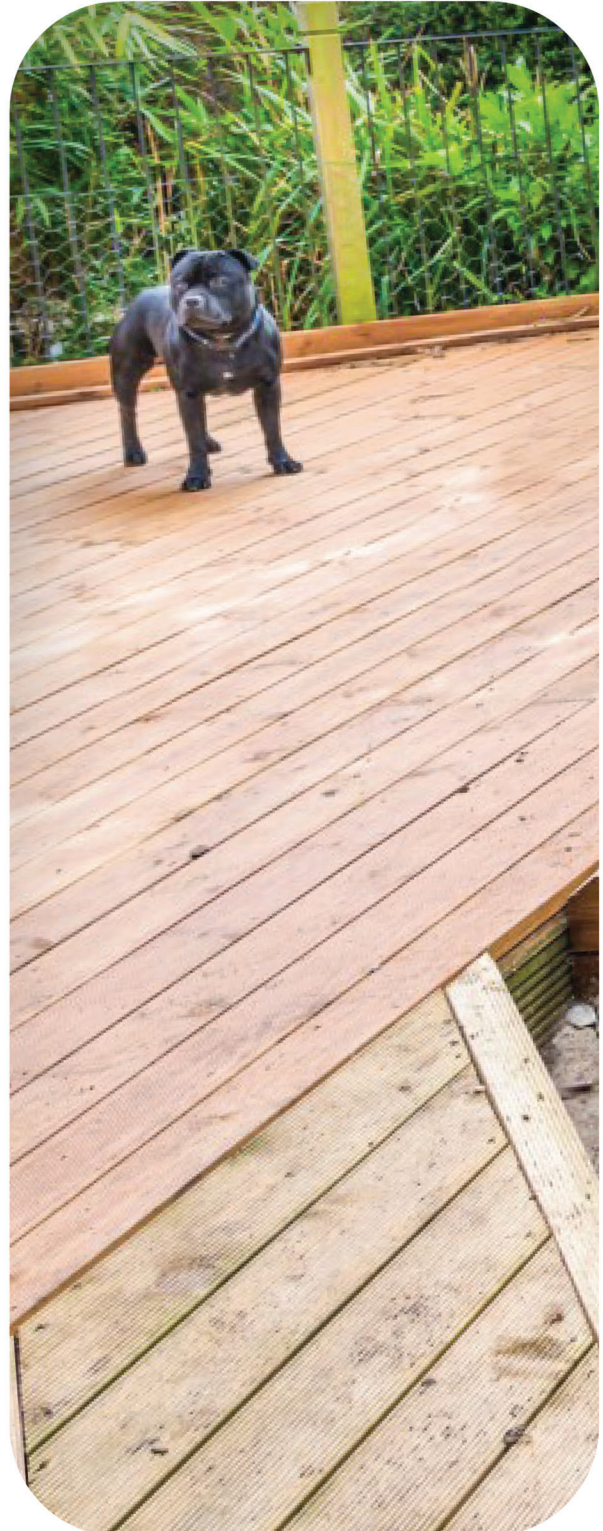

Jay's Synthetic Grass have supplied and installed artificial turf to many Western Australian companies, some examples of our work are below:

Jay's Synthetic Grass are the specialists in design and installation of composite decking, we supply and install only the highest quality composite decking boards to private and commercial customers. We only work with superior suppliers with more than 30 years' experience in the industry.

Jay's will help you transform your outdoor space with a beautiful composite timber deck. Our composite decking is an environmentally friendly alternative to natural wood. It gives you the look and feel of timber decking without the maintenance, freeing you up to enjoy your new deck.

Forestar

COLOUR SELECTIONS

FORESTAR – Is the most affordable in the market, value for money without compromising on quality. A great hardwood looking type of composite decking, but without all the maintenance of a real hardwood.

Dura

COLOUR SELECTIONS

DURA – The best quality composite decking in the industry. This composite timber is manufactured with a high-performance shell that wraps around the exposed top and sides of the board to protect it from fading, staining, scratching and mould.
